Butte, Mont., July 3.- Louis Duncan, mayor of Butte, was stabbed three times late today, and shot his assailant, Eric Lantala, a Finnish miner, In the abdomen. Both men probably will recover

The affray took place in Mr. Duncan's office whither Lantala went to enter protest against the presence in Butte of Frank Altonen of Negaunee. Mich., correspondent for a Finnish newspaper at Hancock, Mich. paper has sided with officials of the Western Federation of Miners as against a faction of Butte miners' local No. 1, which recently broke away and formed a new organization, and the mayor was asked yesterday to order Altonen out of town. He was told that 250 Finnish miners, favoring the new organization, had decided that Butte was not a good place for the man, and had adopted resolutions calling for his deportation.

Tried to Explain. "I have no power to force an Ameri-can citizen to leave," the mayor is sald to have told his petitioners, some of whom appeared not to agree with

By this time he had inflicted three ormore persons were knocked wounds on the mayor. Duncan and Lantala were taken to hospitals where it was said, after a full examination, that the mayor's wounds tonight that two women injured on were superficial cuts in the neck back and shoulder, while Lantala's wound would have to be examined further to ascertain whether the liver had been penetrated, in which case it might prove fatal. The mayor was later removed to his home.

Story of Mayor. This afternoon Lantala appeared in the office of Police Judge Booher, and after threatening him, repaired to the second floor of the city hall. where Mayor Duncan was just enter-

ing his own office. 'I noticed someone behind me, declared the mayor, as he was lying on a cot in the emergency hospital. Lantala drove the knife into him three times. The third thrust was just as Davis and Van Horne rushed into the room and started to pull Lantala from the mayor. The stab bing was done with an improvised

dirk made from a file. Lantala first appeared in the pres ent trouble yesterday when his ar rest was caused by friends of Frank Altonen, a correspondent for a Finnish newspaper published at Han-Mich. Altonen had come to Butte to champion the cause of the Western Federation of Miners in the

labor disturbances here. Lantala, when called upon to plead esterday, indicated that he could not speak the English language. Police Judge Booher, believing that the man was not speaking the truth, sentenced him to jail for twenty-four hours Later his punishment was fixed at a fine of \$10 on a charge of attacking Altonen, and he paid the fine.

"I shall remain in Butte until either am assassinated or forcibly run out of the city," said Altonen, who is a former organizer for the Western Federation of Miners.

He is now filling the position of state leader of county demonstrators, having performed these duties for over a year. He is in touch with the greatest needs of the Utah farmer and should be able to give Salt Lake county some very efficient service during the short time that he is here previous to the appointment of the regular man. Who this regular man is to be is not yet definitely known, but Dr. Peterson of the extension division, says he will be a man of scientific and practical training such as the work which he will have to perform will demand. Contrary to a very common opinion Salt Lake county is one of the most important agricultural regions in the state, and is therefore in need of the best help which can be obtained. The recent action of the county commissioners, whereby they appropriated a portion of a \$2400 fund for services of a county demonstrator, is therefore to be commended.

## THE FILTHY, DIRTY, DISEASE BREEDING FLY

If you found a fly in your soup you would not eat it.

But what about the fly which crawls all over your meat before you buy it?

If you knew it, you would not eat that either, but you don't know.

You are safe only when you purchase U. S. Inspected Meats.

The Fly has no access to them—It cannot carry the filth, dirt, disease and bacteria from the mire and corruption of it's haunts into our U. S. Inspected Meats; because they are thoroughly protected by being completely wrapped in knitted white cotton bags, protecting them against flies and dirt from the time they leave our plant until delivered at the markets.

This feature of our method of delivery is in line with the cleanliness and sanitation existing throughout our entire establishment. By noting the contrast between our neat, clean and sanitary manner of handling our meats and the way the uninspected kind of meats are exposed to the flies and dirt of the streets, you will have somewhat of an idea of the differences in sanitary conditions between Government Inspected Plants and uninspected Slaughter Houses.

You are vitally interested in this propanganda; it is being done for YOUR PROTECTION. You may easily learn whether your market is handling meats that are properly protected, by stepping down town some morning early and watch the meats delivered to your dealer.
